A **VARIETY OF SIZES**, with or without **Extension Tops, Reservoirs, Hot Closets, &c., &c.** for **HARD or SOFT COAL**, or **WOOD**, kept constantly on hand.

**CHILSON'S PATENT**  
**Elevated, Double-Oven COOKING RANGE**  
**HAS BEEN REMODELLED AND GREATLY IMPROVED.**

This Celebrated Range is universally acknowledged to be the most complete and perfect Kitchen Range in America.

No housekeeper, who would enjoy the comforts of a really perfect Kitchen Range, should fail to examine this before purchasing. Sizes adapted for dwellings, hotels, &c. with or without water-backs, hot closets, and hot-air fixtures for heating additional rooms.

It excels all others—

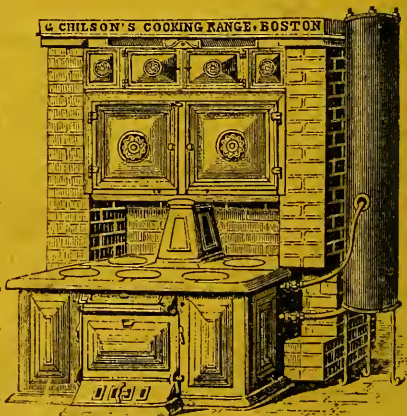

1st—In its entirely new principle for circulating the heat around either oven separately, or both ovens, as desired.

2d—In its heavy fine castings and thorough workmanship.

3d—In its **GREAT ECONOMY OF FUEL**.

4th—In its quick and even baking ovens.

5th—In its self regulating flues, without the usual complication of dampers; and finally, in its general beauty of design, durability, &c.

# THE ARLINGTON PORTABLE RANGE.

CHILSON'S NEW RANGE, 1872.

The first sight of this new and splendid Portable Range will convince all that its equal has never been seen. — In its Beautiful Design, Superior Fine Heavy Castings, with and without Hot Closets, and Reservoirs; also, Hot Water Fronts for Bath Boilers, Sifting Grates, Ash Pans, etc.

Housekeepers will be pleased with this PORTABLE RANGE.

## CHILSON'S CELEBRATED AND UNRIVALLED BRICK AND PORTABLE FURNACES,

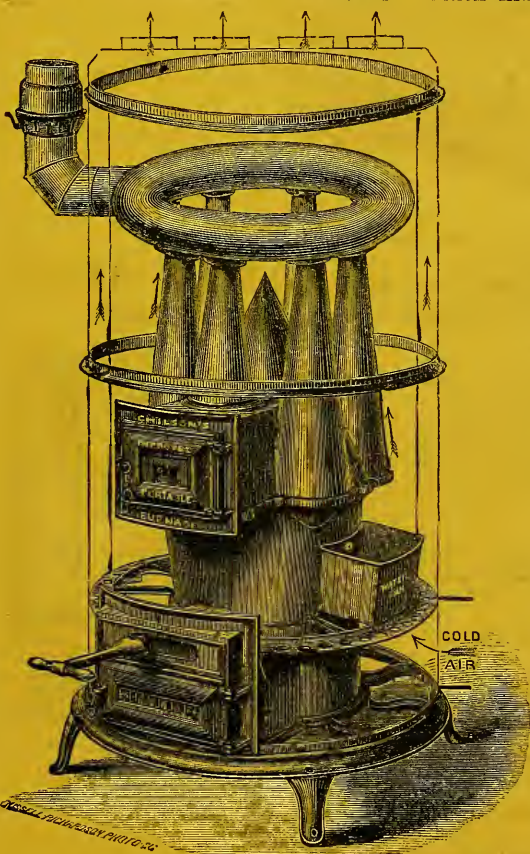

Ten Sizes.

*Patented in the United States, England and France.*

The high reputation this furnace has acquired, in the use of more than twenty thousand, places it pre-eminently ahead of any other known plan for thoroughly and economically warming buildings. The cuts of the brick or portable furnaces will show at a glance to any intelligent mind the wonderful heating powers, a cluster of tapering Radiators standing directly over the fire, must have over any other form of heating surface, and which is so constructed as to be perfectly gas and smoke tight. Any one in want of a furnace should not fail of thoroughly examining this furnace.

Special attention given to putting up furnaces and Ranges, and the ventilation of buildings in every part of the country.

Nothing but strictly first-class work is manufactured by me.

## PREFACE.

---

THE Directory of New Bedford is again presented to our patrons, and those having occasion to use it. The difficulty of compiling a City Directory can hardly be understood, and is not easily explained; yet we believe the Directory for 1873-4 is more nearly correct than any of its predecessors.

This year's Directory contains 7,812 names, and on the basis, which has been found to be nearly correct, of  $3\frac{1}{2}$  persons to each name, gives a population of 23,436.

More changes, both in residences and places of business, have been made within the past two years, than in the same time since our connection with the publication of the work.

The Directory contains a great amount of information concerning the public, religious, charitable and private institutions of the city, which makes it a valuable present record as well as an historical authority.

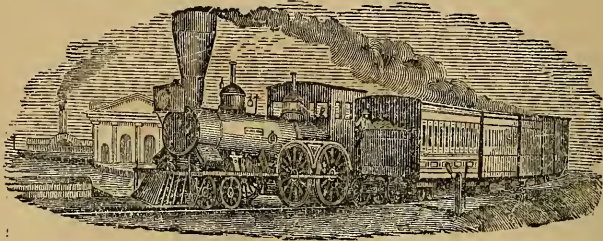

Every person should have at his place of business, or at his house, a Directory, not only as a daily convenience, but also as a valuable record of local history.

An examination of the Business Department shows the steady growth of our industries, and gives the most encouraging prospects for the future.

**E. D. SPEAR, M. D.,**

# THE OLD INDIAN DOCTOR,

So much Celebrated for his Remarkable Cures.

**713 WASHINGTON STREET, BOSTON.**

— Dr. Spear can be consulted upon all Diseases. —

DR. SPEAR has issued a small work in which he says:—In preparing the Medical Hand-book, for the afflicted and the public at large, which is designed to take the place of the more bulky "Family Physician," the author and publisher has several objects in view. The first was to bring it into a more portable size, by eliminating and condensing a large amount of reading matter, and omitting many testimonials received in his earlier practice, thus meeting the demand of this fast and busy age, when few can stop to read long homilies on any subject. But the principal and most important object was to bring to the notice of the public a sample, at least, of the great mass of certificates and testimonials he has received within the last few years, and is now constantly receiving. To these he bespeaks the careful attention of the reader; and he refers to them in no boasting spirit, but simply as evidence that his study and effort to relieve suffering humanity have met with gratifying success. In this regard, he can cheerfully submit his claims as a successful physician, to that truest and most sacred of all tests, "By their fruits shall ye know them."

It may be thought by many hardly necessary to say, after communicating with the public so often and for so long a time, that his treatment of diseases is peculiar to himself; but for the benefit of those just coming upon the stage of action, it may very properly be dwelt upon for a moment. Suffice it to say, in brief, that he has discarded many of the crude and absurd notions that obtained among practitioners of past ages, and clung to by many with surprising tenacity at the present day, and after careful study and diligent research into the various systems of practice, has adopted a system which has common sense combined with science as its basis. Upon this sure foundation, by the full use of his reason and judgment, he has drawn from Nature those pure and safe remedies, which, though all powerful in removing disease, and bringing to the patient joyous and gladsome health, leave no life-long sting behind.

To the sick, therefore, he feels authorized to speak words of encouragement and hope. As will be seen by reading the testimonials, many who were near the gates of death, and given up as lost, have been rescued by his hand and restored to health. Others who are now suffering with little hope of relief, he believes may also be made to enjoy the rich blessings of health. The afflicted, then, of whatever nature, he invites to come to his office, No. 713 WASHINGTON STREET, BOSTON, with the assurance, that his utmost skill shall be exerted in their behalf.

The "Medical Hand-book" may be had free. Enclose stamps.

# The Mercantile Agency,

FOR THE PROMOTION AND PROTECTION OF TRADE.

Established by LEWIS TAPPAN in New York, A. D. 1841, by LEWIS TAPPAN and EDWARD E. DUNBAR in Boston, A. D. 1842, and since then in undernamed Cities of this country, Canada, and Europe.

BOSTON OFFICE,

Merchants' Exchange Building, 51 State St.

Worcester Office, No. 452 Main St.

Portland Office, No. 88 Exchange St.

This Institution has enjoyed for more than thirty years the confidence and patronage of the leading Bankers and Merchants of New York and Boston, and has acquired that of all live business men in other cities of this country and British Possessions and the Eastern Continent, as they have become acquainted with it by the successive establishment of Branch offices in their midst.

Originally established with the view to give to subscribers simply details as to the character, responsibility, and trustworthiness of those to whom they were called on to sell goods, two other features were added some years ago. One, the *Collection of Overdue Claims*. The other, *The Mercantile Agency Reference Book*.

For collection of debts the Agency has superior facilities.

The Reference Book, wherever seen, recommends itself and the offices that jointly prepare and issue it, yet no one who uses it has probably any idea of the amount of money and labor employed in the collection of the information which forms the basis for each issue of the Reference Book. Its general accuracy testifies to the care bestowed upon the work and the facilities acquired for its production, while the system of ratings adopted—severing as it does the property qualification and presenting that by the side of the credit rating—is eminently useful and satisfactory, while it is at same time a constant challenge to adverse criticism.

ADVERTISING DEPARTMENT.

# BRISTOL COUNTY Mutual Fire Insurance Co.,

Incorporated in 1829.

OFFICE, No. 44 NORTH WATER STREET,  
NEW BEDFORD.

The Bristol County Mutual Fire Insurance Company insures against loss and damage by fire on buildings only, not exceeding the amount of three-fourths of the value of said buildings.

The present amount of property insured by this Company is upwards of

**\$6,000,000.**

Each person or company, by its agent, insured at this office, becomes, *ipso facto*, a member of the Corporation during the time for which he is insured.

The insured is required to give a deposit note for such rate of premium on the amount insured as may be agreed upon, and to pay at the time of receiving his policy five per cent on the amount of said note. The following case will explain the principle: a policy is made on a dwelling-house for \$2,000, for seven years, at a premium of ten per cent, which is \$200, for which sum the insured gives his premium note; he pays cash five per cent on the note, \$10.00. In case losses should exhaust the amount received on the premium notes as aforesaid, then the insured will be liable to an assessment on said notes.

The cheapness of insurance in this Company is shown by the fact that for the last seven years the cost has been only

**9.1-3 CENTS ON \$100 PER ANNUM,**

which includes all expenses and costs for collecting assessments.

Blank forms for application for insurance may be had at the office.

We have no unadjusted losses.

We desire to caution the public against parties pretending to be *traveling agents* of the Company. No such agents are employed. Persons desiring reliable information concerning our affairs, can always obtain it of the officers of the Company, at our office, No. 44 North Water Street.

The success of the Company in avoiding litigation is worthy of remark, it never having been a party to a suit.

# PIANOS

AT GREAT BARGAINS.  
**WOODWARD & BROWN**

*Have Removed to the Large and Elegant Warerooms,*  
514 Washington Street, a few doors north of Kneeland Street,

The remarkable beauty and purity of sound that modern skill has succeeded in producing are nowhere better exemplified than in the instruments that crowd our warerooms. All the qualities that give superiority, strength of tone, sonorousness, ability to stand in tune, and ease and flexibility of action, are found there in perfection. These Pianos have long been famous, also, for thorough workmanship, and the durability that characterizes them. After years of service, the full, mellow tone, so delightful and satisfying to the ear, is as perfect as at first, and in every detail care and nicety in labor are evident.

At the recent Worcester County Exhibition they were awarded the highest premium. The same was the case at the last great Exhibition and Fair of the Massachusetts Charitable Association, held in Boston, of which the late Jonas Chickering was the president, and his pianos took the second prize. They will stand in tune longer than any other piano manufactured, as we make a specialty of that point.

*Pianos sold on Instalments. Old Pianos taken in Exchange for New.  
Pianos to let. Pedal Pianos. Tuning and Repairing done in the  
best manner. DONT FORGET THE NUMBER,*
